CLAIM AMENDMENTS

This listing of claims will replace all prior versions, and listings, of claims in the application:

- 1. (Currently Amended) A generally oval battery including a battery case having a generally oval cross section, a generally oval sealing plate including a pair of linear parts opposite each other and a pair of circular parts opposite each other forming a generally oval shape and forming locations where the linear parts join the circular parts and the shape of the sealing plate changes from a circular part to a linear part and from a linear part to a circular part, and an electrode plate assembly, said sealing plate having a U-shaped cross section, and said battery having a thickness of 4mm or more and an aspect ratio of 3 or more, wherein a-location the locations where the shape of the battery case changes from a circular part to a linear part or from a linear part to a circular part in an interface between said battery case and the sealing plate acts as a point where breakage occurs for discharge of gas.
- (Previously Presented) The generally oval battery according to claim 1, wherein said battery case is tubular with open ends.
- (Previously Presented) The generally oval battery according to claim 1 or 2, wherein said battery case and said sealing plate are joined together by welding.
- (Previously Presented) The generally oval battery according to claim 2, wherein said battery case and said sealing plate are joined together by welding.
